

Sales and Customer Analysis Report

Date: June 19, 2025

Prepared by: Abdelkader DINEDANE

Executive Summary

This report analyzes customer demographics, payment preferences, sales distribution across product categories, and total sales by shopping mall. The data highlights a balanced gender distribution, a dominant preference for cash payments, and a significant concentration of sales in the Clothing category. Additionally, shopping malls like Mall of Istanbul and Kanyon lead in total sales, reflecting their importance as retail hubs.

1 Gender Distribution

- **Total Customers:** Approximately 99,486 (39,98K Female + 59,48K Male)
- **Breakdown:**
 - **Female:** 39,98K (40.19%)
 - **Male:** 59,48K (59.81%)
- **Insight:** The customer base shows a majority of male shoppers (59.81%), indicating a potential target for marketing campaigns tailored to male preferences.

2 Payment Method Preferences

- **Total Transactions:** Approximately 99,45K (20,08K Debit Card + 34,93K Credit Card + 44,45K Cash)
- **Breakdown:**
 - **Cash:** 44,45K (44.69%)
 - **Credit Card:** 34,93K (35.12%)
 - **Debit Card:** 20,08K (20.19%)
- **Insight:** Cash payments dominate (44.69%), suggesting a preference for immediate payment methods, possibly due to convenience or cultural factors. Credit and debit cards follow, with credit cards slightly more popular than debit cards.

3 Sales per Category

- **Total Sales Value:** Approximately 99,98K across all categories
- **Breakdown:**

- **Clothing:** 34,48K (34.68%)
 - **Books:** 15,1K (15.18%)
 - **Food & Beverage:** 14,78K (14.86%)
 - **Toys:** 10,09K (10.14%)
 - **Shoes:** 10,03K (10.09%)
 - **Souvenir:** 5K (5.03%)
 - **Technology:** 5K (5.02%)
 - **Cosmetics:** 4,98K (5.01%)
- **Insight:** Clothing is the leading category, accounting for over a third of total sales (34.68%), followed by Books and Food & Beverage. This suggests a strong demand for apparel and essential goods, with niche categories like Cosmetics and Technology contributing modestly.

4 Total Amount per Shopping Mall in 2022

- **Top Performing Malls:**
 - **Mall of Istanbul:** ~20M
 - **Kanyon:** ~18M
 - **Metrocity Park AVM:** ~15M
 - **Istinye Park AVM:** ~12M
 - **Metropol Center:** ~10M
 - **Zorlu Center:** ~8M
 - **Vaport Outlet:** ~6M
 - **Cevahir:** ~5M
 - **Forum Istanbul:** ~4M
 - **Emaar Square Mall:** ~3M
- **Insight:** Mall of Istanbul and Kanyon are the top revenue generators, each exceeding 15M in total sales. This indicates their prominence as key retail destinations. Smaller malls like Emaar Square Mall contribute less but still play a role in the overall market.

5 Recommendations

- **Targeted Marketing:** Focus marketing efforts on male customers (59.81%) and promote cash-based promotions to leverage the dominant payment preference (44.69%).
- **Category Focus:** Expand inventory and advertising for Clothing and Books, the top-performing categories, while exploring growth opportunities in Cosmetics and Technology.
- **Mall Strategy:** Invest in enhancing the customer experience at leading malls (Mall of Istanbul, Kanyon) and consider revitalization efforts for underperforming locations (Emaar Square Mall).

6 Conclusion

The analysis reveals a robust retail ecosystem with clear leaders in customer demographics, payment methods, product categories, and shopping mall performance. By aligning marketing and operational strategies with these insights, businesses can optimize sales and customer engagement.
